Dear Avinash,

Congratulations! The Department of Geography at the University of British Columbia is pleased to recommend to the Faculty of Graduate Studies that you be admitted to the Doctor of Philosophy program in Geography, to start in September 2019. Your application won immediate acclaim from our Graduate Committee members, and colleagues in the relevant fields are thrilled at the prospect of working with you. Dr. Michele Koppes has agreed to act as your supervisor. We hope very much that you will decide to come here. Our Graduate Program is exceptional, and provides a stimulating and supportive environment that is ideally suited to high-achieving scholars such as yourself.

We are pleased to provide financial support as follows, provided that you maintain satisfactory progress in the doctoral program. You can anticipate stable and consistent funding for the full four years of your study. Your funding will be distributed as:

Year 1, 2, 3 and 4 (September 2019 to August 2023)

Four Year Doctoral Fellowship (4YF) - https://www.grad.ubc.ca/awards/four-year-doctoral-fellowship-4yf	**$18,200 + full student tuition coverage (approx. $8,600 for inter. students) = approx. $26,800 per year**
Teaching Assistant position (TA) - Approximately 185 hrs per year	**$6,000**
Total income value per year (approx.)	**$32,800**
TOTAL VALUE (Years 1 to 4)	**Approx. $131,200**

The Department of Geography tries to ensure all incoming graduate students have access to a minimum $23,000 in annual income through scholarships, teaching assistant or research assistant positions for the first years of their degree. However, if you are successful in your scholarship applications and receive financial assistance from outside funding source(s), our financial support will be adjusted. Therefore, you must inform the program immediately of any

new or additional funding sources by emailing graduate.program@geog.ubc.ca. UBC Geography graduate students without external funding are required to apply for SSHRC or NSERC graduate scholarships and are strongly encouraged to apply for UBC's Affiliated Fellowships. Before applying, students should verify that they meet all of the eligibility requirements. Information on these scholarship programs and the application requirements will be sent to you in August.

You will be expected to cover your student fees for the duration of your program. For fee costs, visit https://www.grad.ubc.ca/prospective-students/tuition-fees-cost-living/graduate-student-fees.

Besides providing some degree of financial security, we work hard to ensure that our students reach their full academic and professional potential. Our graduating students are in high demand, and many of them secure further academic or professional positions before they graduate, thanks in large part to the overall calibre of our students, the professional stature of our faculty members, and the international reputation of our department.

Dr. Michele Koppes (michele.koppes@geog.ubc.ca) will contact you in the next few days. If you would like to speak with some of her students, she can offer you their contact details. We would be happy to hear from you and to answer any questions you may have.

Your admission is subject to the approval of the Faculty of Graduate Studies. You will receive a formal letter of admission from them shortly, provided they accept our recommendation. I would ask you notify me, or the graduate program staff (graduate.program@geog.ubc.ca) of your intent to accept or decline our offer by **March 15th, 2019.**

I look forward to hearing from you.

Sincerely,

Dr. Michele Koppes

Invitation for Avinash Parla, born 19/08/1995,
to visit the WGMS, hosted at the University of Zurich, as an academic guest

Dear Avinash Parla,

I would like to invite you, Avinash Parla, MSc of Technology from the Indian Institute of Technology in Bombay, India, as an academic guest for a three months stay at our Institute at the University of Zurich. The planned time for your visit is from 28/02 to 27/05/2019.

I am sure that it will be an excellent opportunity for you to get specific training in the area of worldwide glacier monitoring and research. Your main tasks will be to support the WGMS staff with the production of the upcoming third issue of the Global Glacier Change Bulletin (https://wgms.ch/ggcb/) and to analyze glacier changes in the region of your interest.

Your status at the University of Zurich will be that of an academic guest. Please note that visa applications for academic guests may take up to three months. Our secretariat and the International Scholars Center of the University can help you with information regarding your visa application.

As an academic guest you will have office space, access to library and computing/internet resources and all other necessary support for your work. I understand that your parents will cover the insurance, travelling and living costs of your stay in Switzerland. Please consider that living costs are rather high in Zurich, typically around CHF 2’000-2’500 per month per person. The WGMS can support your stay with a maximum of CHF 3’000 for reimbursement of travel and living costs (against original invoices).

I am looking forward to a fruitful collaboration and thank you on behalf of the WGMS and the corresponding umbrella organizations for a close collaboration.

Sincerely

Michael Zemp, Director WGMS
